# Introduction

## **About this book**

This book contains 40 pre-primer sight word cut and worksheets intended for use with children in Preschool, Kindergarten (Prep) and Grade 1. The exercises are extremely teacher and student friendly and each worksheet has been designed with larger than normal print to aid young learners, along with simple pictures to assist English language learners.

## **Directions for use**

The worksheets in this packet are very basic and concentrate solely on a focus word. The aim is to familiarize the student with the new sight word and to reinforce correct letter sequencing to form the word. Tasks include writing the focus sight word on writing lines and whole-word shape boxes, identifying the focus words among other words of varied fonts and then cutting and pasting letter tiles in correct order to make the focus word.

The worksheets in this book can be used while working with the entire class, in small groups, or one-on-one with individual children. They can also be assigned as homework for additional practice to reinforce words learnt in the classroom.

Happy Teaching :)
