Alphabet crown	83-85
Letter craft	86-87

# Introduction

## About this book

This Phonics Letter of the Week unit has been designed to be used with children in Kindergarten (Prep). It contains a variety of games, activities and worksheets that will help teach correct letter formation, letter identification and recognition of letter sound.

The purpose of creating the Phonics Letter of the Week series, to which this unit belongs, was to provide a means by which one letter of the alphabet could be taught at a time. A great emphasis is placed on letter sounds, which makes this an ideal tool for teaching phonics.

## Directions for use

*Before you begin..*

Have the children say out loud the sound of the letter each time they work on a tracing worksheet; this will reinforce the relationship between the letter and the sound it makes. In addition to this, children will remember the sounds as they begin to read later on, and those that have trouble with reversals (such as the letters "b" and "d"), will remember that "b" starts at the top and "d" starts at the circle.

Following is an outline of what you will find in this book and suggestions for implementing the content in your classroom or home.

### 1. Poster with correct letter formation

To prepare the poster for use, print, laminate and display on your wall.

### 2. Poster with CVC words

This poster displays 10 CVC words that either begin with or contain the letter in focus. To set up, print laminate and display on your wall or include it in a file-folder word wall. (Please note: some vowel units do not contain CVC words or display 10 words).

### 3. Flash cards with correct letter formation

These cards display correct letter formation for both upper and lower case letters. They can be used as flash cards, tracing cards or even displayed as posters. To prepare the cards for use, print them out, laminate for durability and then cut them apart (optional).

### 4. Play dough mat with correct letter formation

Children will have lots of fun using play dough to reproduce the letters on the mat! They will learn correct letter formation and build up their fine motor skills in preparation for writing. To set up, print and laminate. (Cut in half if you want separate cards.)

### 5. Write and wipe cards with correct letter formation

Children can practice correct letter formation over and over with these cards using a dry-erase (whiteboard) marker. To prepare the cards for use, print, laminate and cut out. To keep the cards together, make a hole in the top left hand corner and secure with a key ring or pipe cleaner.

### 6. Write and wipe letter mat

This mat has been designed for use in a Write and Wipe center with a dry-erase (whiteboard) marker. Children trace both upper and lower case letters, a word that begins with the focus letter and 5 CVC words that begin with or contain the focus letter. To prepare, print and laminate.

### 7. Vocabulary cards

This set contains 18 vocabulary cards that begin with the focus letter and 9 cards that contain or end with focus letter. These can be used as:

- vocabulary flash cards
- a matching card game (for which you will need to print 2 sets)

To prepare for use, print, laminate and cut the cards apart.

I have also included a Write the Room activity worksheet. Children write down as many words that begin with the focus letter that they can see in the room.

### 8. Sound Hound center activity

Set-Up: Print, laminate and cut out the dog you prefer to use and the picture cards. Cut the dog down the dotted lines to separate the head, middle and tail sections.

Each card displays a picture with the focus letter above it. The aim is for children to identify the position of the letter (beginning/head; middle/tummy or end/tail) as they say each word, and place the cards under the corresponding dog section. They then complete the accompanying worksheet. (The worksheet can also be used independently of the center activity).

### 9. Build-a-sentence

Set-Up: Print the contents of this page and laminate it for durability. Cut out the sentence base (entire first row) and along the dotted lines of the picture cards to obtain 8 squares. You may store these in a large zip-lock bag.

The aim of this game is to practice reading a predictable sentence using different vocabulary words that begin with the focus letter. Children choose a picture card from the pile and place it over the coloured square on the sentence frame, then read the sentence out loud. I have included a recording sheet children to complete once they finish the activity.

### 10. Alphabet flip book

Set-Up: Assembly is required, either by teacher or students. You will need to cut around each rectangle box, then along the dashed lines of the bottom one. Make sure that the top rectangle is left intact as it will form the base for the flip book! Arrange the word cards one on top of the other and staple them to the base. Students will have lots of fun reading their books over and over again to friends and family! I have included a couple of recording sheets for this activity.

### 11. Activity mini book

A foldable mini-book with different activities: letter identification, beginning sounds and letter tracing. Simply fold the page vertically, down the middle, and then horizontally to create the book.

### 12. Alphabet reader

Set-Up: I have included 2 versions of this activity: black and white and coloured. Once you have selected your preferred version, print, then either teacher or student will need to cut each page in half and staple on the left hand margin to form a book. Children practice reading a predictable sentence that uses the most common sight words and simple words (mostly CVC) that begin with the focus letter.

### 13. Missing letter cut and paste reader

Set-Up: Once printed, place each page on top of each other in order, cut in half and staple to make 2 booklets. Also cut the last page so that you will get 3 strips of 6 letter pairs. Children are required to cut the 6 pairs apart and paste one on each page of their booklet, and then read the sentence on the page.

### 14. Picture scramble cut and paste booklet

Set-Up: Print the pages, stack them on top of each other and cut in half to form 2 booklets. Staple each one. Print the end scrambled picture tiles and leave it as is - children will cut these tiles apart and used them to build the words inside their booklets. Once all the words have been built, the right hand column on each page may be completed by coloring the word, tracing it, then writing it.

### 15. Letter maze

Children complete this worksheet by coloring the squares that contain the focus upper and lower case letters. The aim is to make a pathway from one end of the maze to the other.

### 16. Font discrimination maze

Children complete this worksheet by coloring the circles that contain the letter in focus. The aim is to help children recognise the focus letter written in different fonts.

### 17. Hidden letter worksheet (2 pages)

Children reveal the hidden letter by coloring each section using the colours indicated at the top of the page.

### 18. Beginning sounds coloring worksheet

Children color the pictures that begin with the focus sound.

### 19. Letter Find

Children search for both upper and lower case letters, then write the number of times each one was found in the circles on the left hand side.

## 20. Handwriting practice (dotted and continuous line version included)

Children practice writing both upper and lower case letters.

## 21. Upper and lower letter sort (dotted and continuous line version included)

The main focus of this worksheet is on lower and upper case letter identification. Children trace the letters then cut out the letter from the bottom of the page and paste them in the correct column to show which ones are upper case and those that are lower case.

## 22. Beginning sounds cut and paste (dotted and continuous line version included)

Children begin this worksheet by tracing the upper and lower case letters at the top of the page and then cut out the pictures from the bottom of the page and paste them in the correct column to show whether they begin or don't begin with the focus sound.

## 23. Word match cut and paste (dotted and continuous line version included)

Children read the words in the left hand column and then trace them. To demonstrate comprehension, they are asked to cut the pictures from the bottom of the page and paste them next to the matching word. Finally, they write the words in the right hand column.

## 24. CVC read-match-write

Children read the words in the left column and then draw a line to match them to the correct pictures in the middle. Next, children write the words in the boxes on the right side of the page and then draw lines to match them to the pictures too.

## 25. Homework reading page

This homework sheet focuses on letter sounds. Children are asked to say the names for each of the pictures on the page and identify the position of the sound. Next, they think of other words that contain the focus sound and then they read a 5 CVC words.

## 26. Alphabet reading strips with CVC words (excluding vowel letters)

Children read the sentences on the page using the predicable pattern: "... is for..." Picture cues are given for each vocabulary word.

## 27. Reading page

Children trace the words at the top of the page and then underline the focus lower case letter in each one. Next, they underline or highlight the upper and lower case letters in the nursery rhyme at the bottom of the page and then then write how many focus letters were found.

## 28. Build-a-sentence cut and paste worksheets (set of 5)

Children begin this worksheet by reading a simple sentence, cutting and pasting the words from the bottom of the page in correct order to form the sentence, writing the sentence and then coloring a picture. (Please note: this set contains the same wording as in the reader.)

### 29. Alphabet crown

The crown can be completed at the end of the week as an "I know the letter!" achievement activity. Children cut out their crowns on the cutting line or around the solid shape. They also cut out the shapes containing 3 pictures and glue them onto their crowns. I have also included letter tracing head wraps that can be secured to each side of the crown to form the back part of it. Usage of this is optional; students could use string instead to tie to the crown so it will sit on their heads.

### 30. Alphabet craft

These two pages contain blank upper and lower case letter templates that you can use with children to create letter activities and crafts. Please visit my blog for craft ideas: [www.inmyworld.com.au/category/preschool](http://www.inmyworld.com.au/category/preschool)

Happy Teaching :)
