# Introduction

## **About this book**

This book contains an activity to help children learn their phone number. Included are template numbers for American, Canadian and Australian home and mobile numbers. There are some blank template also so that you can customise how you use this activity.

## **Directions for preparation**

This resource has been created for use in a binder or folder, but can be used however you see fit.

To prepare the activity for use, simply print and laminate all the pages. Cut out the number tiles. Leave the pages with the mobile phones intact as they will form the base for the activity. Attach transparent velcro dots to the blank rectangles and to the back of the number tiles.

Children can practice their phone number by placing the number tiles in order at the top of the page and then dialling it on the number pad.

Happy Teaching :)
