# Introduction

## **About this book**

This book contains a collection of printable activities for use with children in Preschool, Pre-Kindergarten, Transitional Kindergarten and Kindergarten (Prep).

## **Directions for use**

Following is an outline of the activities included in this unit and suggestions for preparation and use.

### 1. Fine motor practice mats (5 mats)

To prepare the mats for use, print and then laminate them for durability. You will need to supply children with pom-poms, gems, beads, beans or any other small objects that will fit inside the circles.

The aim of this activity is for children to place a small object in each of the circles.

### *2. Write and Wipe pre-writing tracing practice: horizontal (8 pages)*

To prepare the pre-writing tracing pages for use, print and then laminate them for durability.

Using a white board (dry-erase) marker, children are required to trace the lines on the page starting at the top and down towards the bottom of the page.

### *3. Write and Wipe pre-writing cards: left to right (15 cards)*

To prepare the cards for use in a write and wipe center, print and laminate them, and then cut them apart. The cards can be kept in a book-like format by punching a hole in the top left corner and securing together with a key ring or a pipe-cleaner.

Using a white board (dry-erase) marker, children are required to trace the lines on the card starting on the left and progressing towards the right.

### *4. Alphabet tracing practice - upper and lower case (32 mats)*

To prepare the alphabet tracing pages for use, print and then laminate them for durability.

Children use a white board (dry-erase) marker to trace the letter on the page, following the directional arrows.

### *5. Upper and lower case alphabet paint match (26 pages)*

To prepare the activity for use, print and then laminate the pages for durability. Cut out all the pieces. Attach velcro to each paint blot (optional).

The aim of this activity is for children to identify and match all the upper and lower case letters to the correct paint palette. Introduce only a couple of letters to begin with and, once children are familiar with the activity and have gained confidence, more letters can be added.

#### *5. Upper and lower case alphabet paint match (26 pages)*

To prepare the activity for use, print and then laminate the pages for durability. Cut out all the pieces. Attach velcro to each paint blot (optional).

The aim of this activity is for children to identify and match all the upper and lower case letters to the correct paint palette. Introduce only a couple of letters to begin with and, once children are familiar with the activity and have gained confidence, more letters can be added.

#### *6. Number tracing practice (1-10)*

To prepare the number tracing pages for use, print and then laminate them for durability.

Children use a white board (dry-erase) marker to trace the number on the page, following the directional arrows. Small objects can be used to fill in the 10-frame to represent the number on the mat.

#### *7. Crayon number match (1-10)*

To prepare the activity for use, print and then laminate the pages for durability. Cut out all the pieces. To assemble the crayon box, cut along the dashed lines. To stick the front and back of the crayon box together, put some tape on the sides and bottom, leaving the top open for the crayons to go in.

The aim of this activity is for children to identify and match all the number representations to the correct crayon box. Introduce only a couple of numbers and crayons to begin with and, once children are familiar with the activity and have gained confidence, more numbers and crayons can be added.

#### *8. Shape sorting - triangle/square/rectangle/circle (8 pages)*

To prepare the activity for use, print and then laminate the pages for durability. Cut out all the pieces.

The aim of this activity is for children to match the every-day objects to the correct shape mat. You may also like to provide children with objects from your home or classroom and ask them sort them to the correct shape mats.

#### *9. Color sorting (23 pages)*

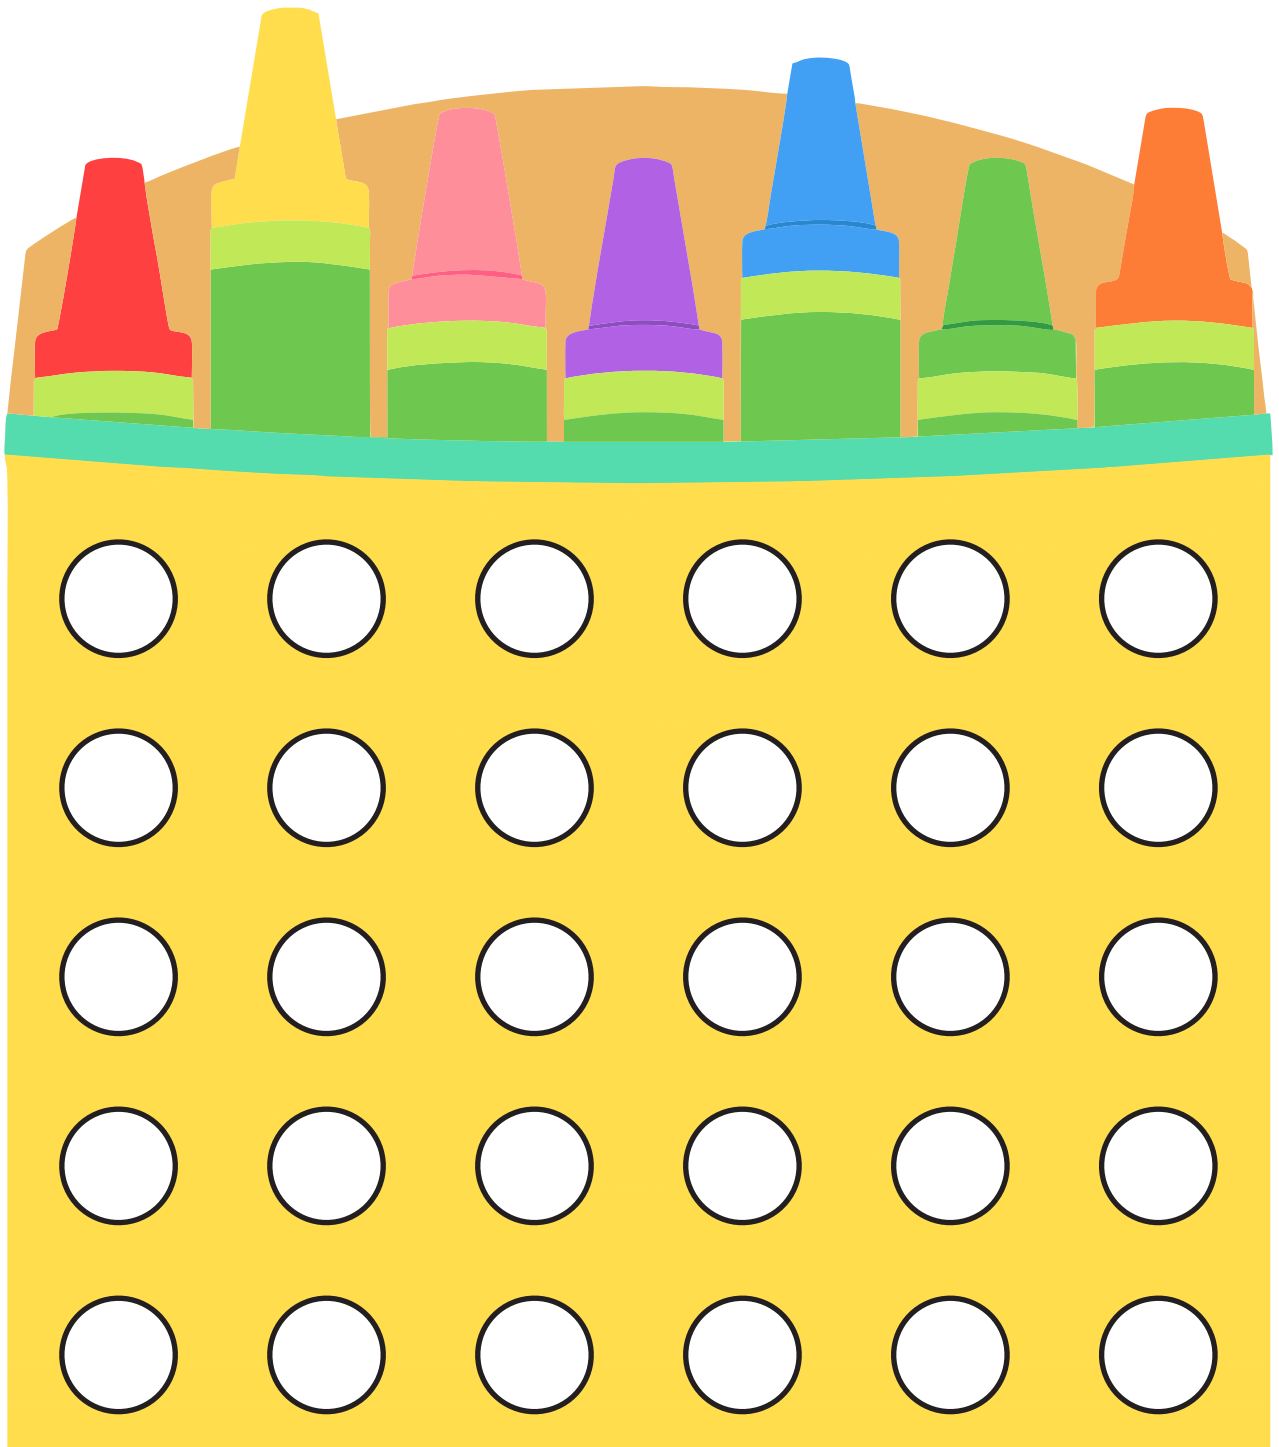

To prepare the activity for use, print and then laminate the pages for durability. Cut out all the pieces.

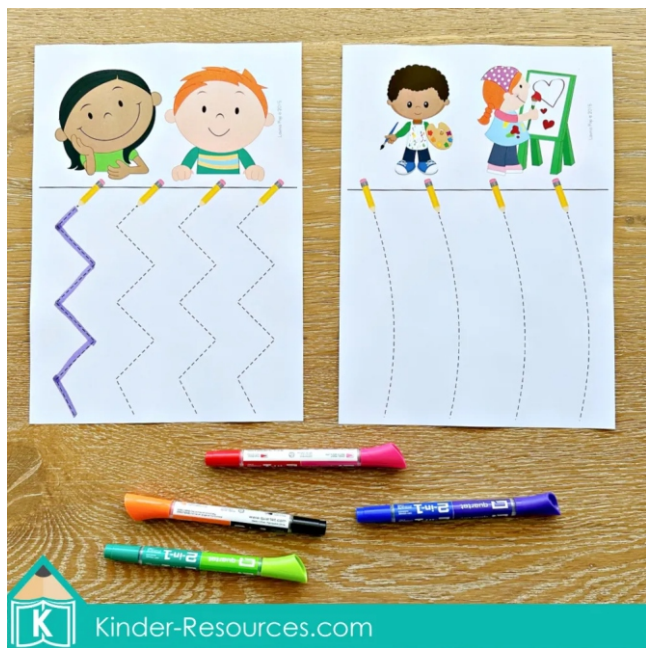

The aim of this activity is for children to match the every-day objects to the correct color jar. You may also like to provide children with objects from your home or classroom and ask them sort them to the corresponding color jars.

Happy Teaching :)
