Introduction

About this book

This book contains 16 activities ideal for use in morning tubs with children in Kindergarten (Prep/Foundation).

To prepare the contents of this packet for use, laminate each printed page for durability and re-use and then cut along the dotted lines. The cards in this packet have been designed to be stored as sets on key rings and for that reason, each card has a hole-punching mark.

I have included photos in this packet showing how the activities in this packet can be used. You may print and store them with the matching activity as a visual instruction card.
