Introduction

Introduce your students to the concept of odd and even numbers with the Apple Odd and Even Sorting activity, designed for numbers 1-24. This hands-on activity is perfect for reinforcing number classification in a fun and interactive way.

Features:

- **Interactive sorting:** Children sort the apple number cards into the correct crate (odd or even) based on whether the number is odd or even.
- **Numbers 1-24:** The set includes number cards from 1 to 24, providing a wide range of practice opportunities.
- **Recording page:** A recording page is included where children can write each number in the appropriate column (odd or even) to document their work.

How to Use:

- **Print and laminate:** Print the pages on sturdy paper, laminate them for durability, and cut the number cards apart.
- **Sort and classify:** Children sort the apple number cards into the odd or even crate.
- **Record the results:** After sorting, children use the recording page to write the numbers in either the odd or even column, showing their understanding.

This engaging activity helps children develop their number sense while making learning about odd and even numbers enjoyable.

Happy Teaching! :)

ODD & EVEN NUMBER SORT

I can

1 Pick up an apple card and read the number on it.

2 Determine whether it is an odd or even number and sort it to the correct crate.

3 Record my work.
