# Introduction

Help your students master sight words with the Colors & Numbers Sight Word Handwriting Book | Tracing Worksheets! This book contains 21 worksheets designed specifically for children in Preschool, Kindergarten, and Grade 1. Each page focuses on a single word, helping emergent readers to practice reading and writing words in context with the aid of simple, supportive images.

## Features:

- **21 sight word worksheets:** Each worksheet concentrates on one color or number word, giving students the opportunity to focus on mastering one word at a time.
- **Reading and tracing practice:** Students will read and trace the focus word on two writing lines and then practice writing the word in three different sentences. This structure reinforces word recognition and handwriting skills.
- **Supportive imagery:** Pictures are included above the sentences to help decode unknown words, making it easier for emergent readers to understand and engage with the content.
- **Two worksheet versions:** Choose between dotted lines or continued tracing lines, depending on your students' needs and developmental levels.

## How to Use:

These versatile worksheets are perfect for whole-class instruction, small groups, or individual practice. Use them as homework sheets, morning work, or for early finishers. You can also compile the worksheets into a booklet for each student with the included cover page, creating a personalized sight word booklet for continuous practice.

## Educational Benefits:

- **Sight word recognition:** Reinforces recognition of common sight words, building a strong foundation for early reading skills.
- **Handwriting practice:** Provides opportunities for tracing and writing sight words, enhancing fine motor skills and handwriting fluency.
- **Contextual reading:** Encourages reading sight words in sentences, promoting comprehension and contextual understanding.

Happy Teaching! :)
