# Introduction

## About this book:

This book contains an editable sight word spelling activity intended for use in centers and small groups with children in Preschool, Kindergarten (Prep) and First Grade.

This packet includes a center label that can be printed and placed on the front of your storage device. Also included are “I can” center instructions to help children remember what to do. I have included a recording page to keep track of each child’s work.

Once you have edited the file, (see instructions below for help with this) print the pages you wish to use, laminate them for durability and cut out the trays and gingerbread people. Alternatively, you can provide children with small letter tiles that they can use to build each sight word instead of the gingerbread people.

## Directions for editing:

1. Please make sure you have the latest version of Adobe Reader installed on your computer. You can get it here: <https://get.adobe.com/reader/>
2. If the font isn’t displaying correctly, you will need to download it from here: <https://bit.ly/2FXT2sz>. It is free for personal use.
3. Simply type one word on the editable field on each tray and one letter on each gingerbread person.

RICH TEXT DOCUMENT: This file will enable you to edit the font type and size. Enter the field you wish to edit and press CTRL + E. This will open an editing toolbox.

Happy Teaching :)

# Build the Word

## I can

- 1 Pick a tray and read the word on it.
- 2 Find the gingerbread people with the letters I need to build the word and arrange them in correct order.
- 3 Record my work.
