Introduction

Engage your students with this hands-on Frog Life Cycle unit! This interactive resource invites children to explore the fascinating stages of a frog's life cycle through fun cut-and-paste activities, colorful posters, and informative booklets. It's the perfect tool for reinforcing key science concepts in a way that's both engaging and memorable.

What's Included:

- **Frog life cycle posters (color):** Available with and without stage labels.
- **Classroom big book (color):** A large visual resource perfect for group learning or wall displays.
- **Student cut and paste frog life cycle booklets (black and white):** Engaging booklets where students complete the life cycle by pasting the correct stages.
- **4 frog life cycle cut and paste worksheets:** Each worksheet focuses on a different aspect of the frog life cycle, from labeling stages to ordering the cycle.

How to Use:

- **Classroom big book prep:** Print all pages and bind them together with staples or a binding comb. This can also be used as a large wall display.
- **Student booklet prep:** Print and stack pages in order, staple together, or let students order and staple them independently. Provide the word boxes for students to cut and paste into the correct spots.
- **Worksheets:** Choose from four different activities focusing on missing words, ordering the cycle, and labeling each stage.

Answers for both the booklet and worksheets are found in the classroom big book.

Educational Benefits:

- **Life cycle knowledge:** Helps children understand the stages of a frog's life cycle, fostering early scientific thinking.
- **Science understanding:** Enhances knowledge of frog biology and life cycles, introducing key scientific concepts like growth, reproduction, and the stages of development.
- **Reading comprehension:** By identifying missing words and completing sentences, children develop their ability to understand and interpret informational text.

Happy Teaching :)

Frog Life Cycle

Color, then cut out the pictures from the bottom of the page and paste them in order to show the life cycle of a frog.

--	--	--	--	--

The tadpole grows hind legs. It also grows lungs and can now breathe air too.

The froglet is now an adult frog. It can live on land and in the water.

After about 10 days, tadpoles hatch from the eggs. They have gills to help them breathe under water.

A frog lays her eggs in the water. They are protected by a thick, clear jelly.

The tadpole grows front legs and its tail becomes shorter. It is now a froglet.
