Introduction

This resource includes 24 CVC word family picture puzzle sets designed to support early phonics instruction in Kindergarten and Grade 1. Each set targets one short vowel word family and features six decodable words represented through matching images.

Children cut the scrambled puzzle pieces, identify the CVC word for each picture, and glue them into a frame to complete the image. After assembling the puzzle, they write one of the matching words underneath.

You can choose from:

- Worksheet format – students complete a single page per word family when printed double-sided
- Booklet format – create a mini book with a cover and 6 picture pages

Skills Practiced

- CVC word decoding
- Word family recognition
- Sound-letter mapping
- Vocabulary building through pictures
- Visual discrimination
- Fine motor skills

Teacher Tip

Encourage students to color the puzzle pictures before gluing for a neater finish. Crayons work best when coloring over glued pieces. The booklet option is perfect for creating take-home reading practice!

This resource is aligned with Science of Reading principles and works beautifully in literacy centers, small groups, or phonics intervention.

Happy Teaching! :)
