Introduction

The Word Family Town Word Wall is a creative classroom display that helps students visualize and explore word families in a fun, meaningful way. Children build a colorful Word Family Town filled with houses, roads, and community buildings as they learn to read, spell, and recognize CVC and CCVC word patterns. It's perfect for phonics lessons, literacy centers, and ongoing classroom decor that supports daily reading practice.

What's Included

- 32 word family houses (CVC and CCVC words included)
- 6 blank houses for adding your own families
- Display signs: Word Family Street and Word Family Town
- Cut-out elements to decorate your town: bus, fire truck, cars, police car, grocery store, police station, restaurant, post office, community hall (or bank), zoo, movie theatre, park, fire station, hospital, church, apple trees, blossom trees, green trees, yellow fall trees, 8 children, police officer, teacher, doctor, vet, firefighter, soldier, construction worker, stop sign, traffic light, and straight or curved roads

How to Use

Print the pages and, if you would like to reuse them, laminate them, then cut out the houses and neighborhood elements. As you introduce each new word family or set of families, add the matching house to your display. Arrange the roads and buildings to create a lively Word Family Street or Word Family Town.

To promote interaction, write different words on the cars or flowers and invite children to place them on the matching road. Encourage students to help expand the town by adding new buildings or labeling the community workers as their reading skills grow.

Educational Benefits

- Reinforces word family recognition
- Builds phonemic awareness and decoding skills
- Encourages spelling and vocabulary development
- Promotes interactive, hands-on learning
- Creates a visual classroom word wall that supports daily review

Teacher Tips

- Introduce a few word families at a time to build mastery.
- Display the town in a central area for students to reference during writing or reading lessons.
