

Measuring Length

NON-STANDARD | CUSTOMARY | METRIC

Five worksheets for measuring length, each featuring a cartoon girl character and the text "Lavinia Pop © 2020".

Worksheet 1 (Top Left): "Compare the objects in each box. Circle the longest object. Put an X on the shortest object." It contains two boxes of objects: a fish, a shark, a paperclip, a ruler, a drum, a xylophone, a guitar, a fork, a spoon, a pencil, a toothbrush, a key, a shoe, and an eraser.

Worksheet 2 (Top Right): "Find the following items. Measure the length of each item using cubes and paper clips. Record your answers." It includes a table with columns for "Object", "cubes", and "paper clips".

Object	cubes	paper clips
spoon		
pencil		
toothbrush		
key		
shoe		
eraser		

Worksheet 3 (Bottom Left): "Cut out the pictures. Paste them in order from shortest to longest." It shows four pencils of increasing length for cutting and pasting.

Worksheet 4 (Bottom Center): "Find the following items and measure them with a ruler. Record your answers." It includes a table with columns for "Object" and "length".

Object	length
crayon	
pencil	
scissors	
sharpener	
book	
piece of paper	

Worksheet 5 (Bottom Right): "Use the ruler to measure the length of each object. Record your answers." It shows various objects (crayon, paperclip, toothbrush, marker, eraser, shoe, skateboard, hammer, wrench, knife, glasses) being measured against a ruler.

Worksheet 6 (Bottom Right): "Color the cubes to measure the length of each object. Record your answers." It shows various objects (shoe, skateboard, hammer, wrench, knife, glasses) being measured using a row of cubes.

Thank you for downloading this product; I hope you will enjoy using it and that it will be a valuable resource for you! I value your feedback, so please don't hesitate to contact me if you have any concerns whatsoever as I will endeavour to address them. And if you like what I've done, please let me know by leaving feedback at my online store :)

Introduction

About this book

This book contains 20 worksheets for measuring length. They are best suited for children in Kindergarten (Prep/Foundation) and Grade 1.

Worksheet tasks included in this packet

- colour the object that is longer than the first
- colour the object that is shorter than the first
- order the objects from longest to shortest
- order the objects from shortest to longest
- sort the objects to show shorter and longer objects
- sort the objects to show which ones are shorter and longer than a toothbrush
- circle the longest of 2 objects
- of 3 objects, circle the longest and X the shortest
- order 3 objects by length writing 1, 2, 3
- read a statement and decide if it is true or false
- colour the cubes to measure the length of each object (2 pages)
- use the ruler to measure the length of each object
- draw a pencil to the length indicated
- guess the length of a second object by looking at the length of another
- find items and measure them with a ruler
- measure items using different 2 objects: cubes and paper clips
- estimate length then measure with popsicle sticks
- estimate length then measure with a ruler
- sort the objects to show whether they are best measures in inches (cm) or feet (metres)

- Happy Teaching :)
