Introduction

This resource has been designed to help young children develop alphabet recognition, beginning sound awareness, vocabulary and correct letter formation. Each page introduces an uppercase and lowercase letter with labeled pictures that begin with the featured sound. Children can color the pictures and letter characters, trace the dotted letters and refer to the formation guide as they practice. The completed pages can also be bound together to create an individual alphabet book.

What's Included

- 1 color & black and white Alphabet Book cover
- 26 color and black and white alphabet coloring pages
- 5 Additional vowel pages with alternative beginning sound pictures
- Alternative letter formation pages for c and g
- American and Australian spelling options for selected words

How to Use

Introduce one letter and its most common sound before giving children the matching coloring page. Say the name of each picture together and emphasize the beginning sound.

Children can trace the uppercase and lowercase letter formation examples with their finger before using a pencil. They can then color the large letter characters and beginning sound pictures.

Store each completed page in an individual folder. Once all letters have been introduced, place the pages in alphabetical order and add the cover to create a personalized alphabet book.

The full color pages can be displayed as alphabet posters, placed in writing or literacy centers, or used as reference pages during alphabet activities. They can also be printed several pages to one sheet to create smaller alphabet cards.

Educational Benefits

This resource helps children:

- Recognize uppercase and lowercase letters
- Connect letters with their most common sounds
- Identify pictures with the same beginning sound
- Develop alphabet vocabulary
- Practice correct letter formation
- Strengthen early handwriting skills
- Build fine motor control through coloring and tracing
- Review previously introduced letters and sounds

Happy Teaching! :)
