About This Resource

This apple themed literacy center gives children practice reading, matching, sorting, and writing sight words. Personalize the trees and apples for literacy centers, small group instruction, or independent practice.

What's Included

- 20 apple tree mats with editable signs and six matching apples per tree
- A student recording page
- An "I can" instruction card and center storage label

Directions for Editing

1. Open in Adobe Acrobat Reader. Download and save the PDF, then open it in the free desktop version of Reader so the linked fields work as intended.
 - <https://get.adobe.com/reader/>
2. Install the font if needed. This resource uses KG Blank Space Solid. Download and install the font, then close and reopen Reader if the lettering does not display correctly.
 - <https://www.teacherspayteachers.com/Product/KG-Blank-Space-Personal-Use-1533769>
3. Enter your words. Click an editable tree sign and type a word, name, letter, or number. Press Tab or click outside the field to update its matching apples. Repeat for the trees you need.
4. Adjust the font and text size. Highlight the text inside an editable field. Press Ctrl + E on Windows or Command + E on Mac to open the text properties toolbar. Where formatting is enabled, choose an installed font and adjust its size or color. Use a smaller size for longer words. You may need to format matching apple fields separately.
5. Save your personalized copy. Use a new filename to keep the original blank version. Check that all text is correct, readable, and fully visible before printing.

Preparation

Print the trees and apple pieces you need. Laminate for durability, then cut out the rectangular mats and individual apples. If desired, attach hook and loop dots to the white apple spaces and backs of the pieces.

Print a recording page for each child. Display the "I can" card and attach the label to your storage container. Begin with two or three trees and mix their apples in a basket or tray.

How to Play

1. Read the words on the tree signs together.
2. Choose an apple, read its word, and place it on a white space on the matching tree.
3. Continue until each tree holds its six matching apples. Read the words again to check.
4. Write the sorted words inside apples on the recording page. Color the picture when finished.

Learning Through Play

Supports word recognition, attention to letter order, matching and sorting, handwriting, fine motor control, and following directions.

More Ways to Play

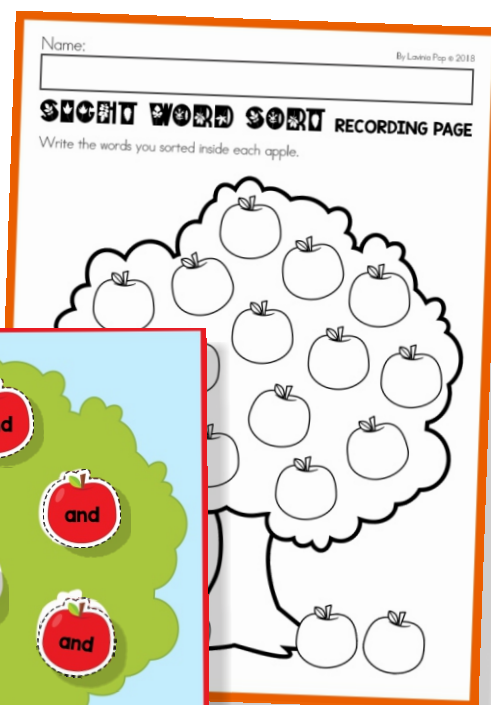

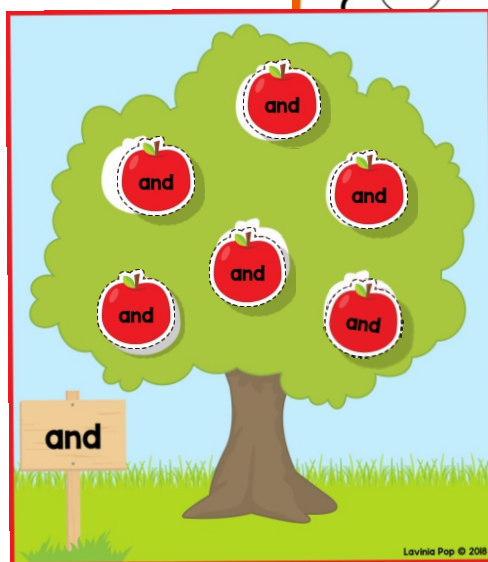

- Apple Picking: Start with completed trees. Pick an apple, read its word, and place it in a basket.
- Read and Build: Build an apple word with magnetic letters before matching it.
- Say a Sentence: Use a sorted word in a spoken or written sentence.
- Partner Play: One child reads an apple while a partner finds its tree. Switch roles.
- Personalize It: Practice names, letters, numbers, or CVC words instead of sight words.

Happy Teaching! :)

SIGHT WORD SORT

I can

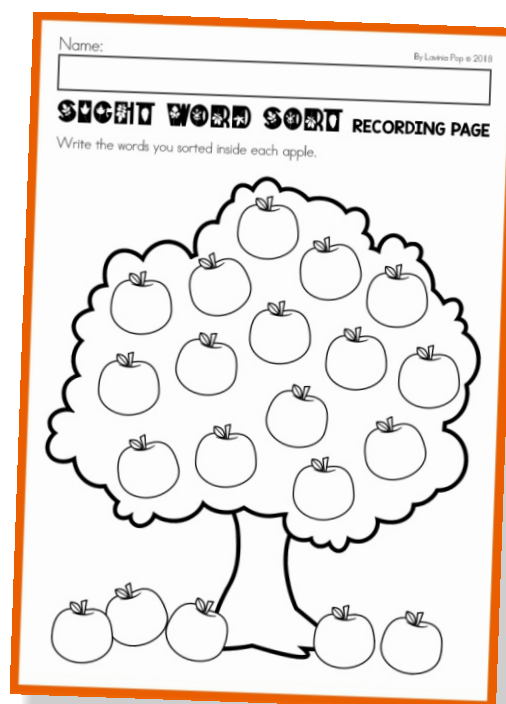

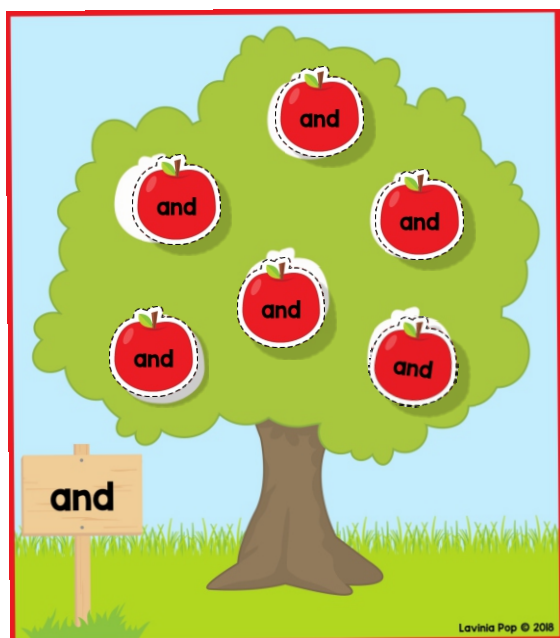

- 1 Choose a tree and read the word on the sign.
- 2 Find the apples with the same word and place them on my tree.
- 3 Write the word inside an apple on my recording page.
