October Fine Motor Morning Bins

The October Fine Motor Morning Bins include 16 hands on activities designed to help children in Preschool, Pre K, TK, and Kindergarten strengthen the small muscles in their hands and fingers.

The activities feature a variety of October themes, including pumpkins, bats, spiders, farm animals, tractors, barns, and fire safety.

Use the activities for morning tubs, fine motor centers, small groups, early finishers, quiet learning time, or additional fine motor practice.

What's Included

1. Picture Punch Cards: Children use a hole puncher to punch around the small pictures bordering each card.
2. Cutting Practice Cards: Children cut along a variety of straight, curved, zigzag, and wavy lines.
3. Dab the Mystery Picture: Children follow the color key and use dot markers or round stickers to reveal the hidden picture.
4. Cotton Swab Dot Painting: Children use cotton swabs and paint to fill the small circles and complete each picture.
5. Pokey Pin Pictures: Children place the page over a foam mat and use a large push pin to poke along the dotted outlines.
6. Cut, Sequence, and Trace: Children cut out the picture pieces, place them in the correct sequence, glue them into position, and trace the completed picture.
7. Lacing Cards: Children thread a shoelace or lacing string through the holes around each picture.
8. Pattern Block Pattern Cards: Children use pattern blocks to copy the color and shape patterns shown on the cards.
9. Mazes: Children trace the paths with an erasable marker or cover the paths with small manipulatives.
10. Missing Color Pictures: Children use colored pom poms, buttons, beads, sequins, or other small manipulatives to fill the missing colors.
11. Playdough Picture Mats: Children roll playdough into ropes and shape it over the outlines to complete each picture.
12. Building Brick Picture Cards: Children collect the building bricks shown on each card and use them to recreate the picture.
13. Counting Cube Picture Cards: Children use counting cubes or snap cubes to recreate the pictures shown on the cards.
14. Pattern Block Picture Mat: Children collect the pattern blocks shown on each mat and place them over the outlines to complete the picture.
15. Pom Pom Picture Cards: Children use colored pom poms or buttons to recreate the pictures. Fine motor tweezers can be added for an extra challenge.
16. Geoboard Picture Cards: Children stretch elastic bands around the pegs of a 5 x 5 geoboard to recreate each picture.

The resource contains all 16 of these activity types, including the separate pattern copying activity and pattern block picture mats.

Preparation

- Print the pages you would like to use.
- Laminate reusable cards and activity mats for durability. Cut apart cards where required.
- Place each activity in a tray, tub, or basket with the materials children will need.
- For activities completed with erasable markers, wipe the laminated pages clean after use.

Supplies

Depending on the activities you choose, you may need:

- Hole puncher
- Scissors
- Dot markers or round stickers
- Cotton swabs and paint
- Large push pins and a foam mat
- Glue sticks
- Crayons or colored pencils
- Shoelaces or lacing thread
- Erasable markers
- Pom poms
- Buttons, beads, or sequins
- Fine motor tweezers
- Playdough
- Building bricks
- Counting cubes or snap cubes
- Pattern blocks
- 5 x 5 geoboard
- Elastic bands

How to Use

Choose the activities that best suit the children in your classroom and place them in individual morning tubs or fine motor centers.

Introduce new activities before adding them to independent centers. Once children are familiar with the activity format, simply rotate the picture cards and mats to provide continued practice.

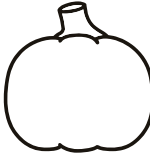

You do not need to use all 16 activities at the same time. Select a few activities each week and rotate them throughout the month.

Fine Motor Skills Practiced

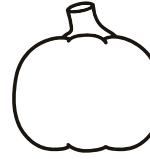

These activities provide opportunities for children to develop:

- Hand and finger strength
- Pincer grasp and finger dexterity
- Hand eye coordination
- Bilateral coordination
- Scissor control
- Pencil and tracing control
- Visual discrimination
- Spatial awareness
- Sequencing
- Problem solving

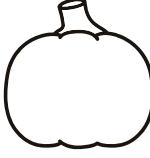

Happy Teaching! :)
